

EnviroLink Cutting Energy Costs and Improving Waste Efficiency

Solutions for UK businesses

Are you interested in cutting your energy and waste spend within your business?

This CPD certified conference and exhibition will help you to make smart choices about the solutions that will drive energy and environmental efficiencies in your business, helping to cut costs and make a real difference to the bottom line.

Why attend?

- Update your knowledge of energy efficiency and recycling and waste solutions
- Discuss opportunities for renewable energy generation
- Tackle the issues of behaviour change and staff engagement
- Discover what financial options and incentives are available to you
- Discuss best practice with pioneers of energy and waste reduction.

British businesses could save on average 20 - 30 % a year by reducing waste and improving the way they use energy.

Rising energy costs and the economic downturn are increasing the pressure on businesses to cut these energy and waste costs. This is your chance to understand the opportunities available and meet leading suppliers that can help your business save money.

Date

Thursday 19
January 2012

Time

08:30 - 16:30

Venue

Halliwel Jones Stadium
Martin Dawes Stand
Winwick Road
Warrington
WA2 7NE

Cost to attend

EnviroLink member - £60

Standard - £120

This event is sponsored by

Exhibitors include
